

## THE WORLD OVER

MACHINE CO. REDUCES PRICES

TORONTO — Massey-Harris Company, through its vice-president and general manager, J.S. Duncan, has announced price reductions on the line of farm equipment. "The company is pleased to announce substantial price reductions on tractors and general farm machinery, effective November 1st, states the official statement.

"The reductions are the result of a desire on the part of the company to share with its customers the benefits of economies effected, together with the savings resulting from the present slight decrease in prices of raw materials," states Mr. Duncan.

## PIGS ATTACK 3-YEAR-OLD BOY

NAICAM, Sask. — Attacked by vicious pigs, three-year-old Gerald Villiers was taken to Melfort hospital in a critical condition. All his clothing, except one leg and some flesh from his side were eaten by the pigs that attacked him a road about a half-mile from his home. The boy's father said his wife was walking with him at the time and she was unable to get help but had difficulty in convincing them that the pigs had attacked the child. When the mother arrived they found the child unconscious.

## DEBT REDUCTION AID FARMERS

EDMONTON — Debts of 3,246 Alberta farmers appearing before the Board of Review under the Farmers' Mortgage Arrangement Act, have been reduced by 38.64 per cent since the Board began sitting in the province three years ago, according to a statement issued last week.

Total indebtedness of \$10,675,171 has been cut by \$7,000,000. Average debt per farmer was \$5,760.09 and average debt reduction was \$3,387.86. In addition to claims heard by the board of review, other farmers' debts have been reduced by several million dollars through agreement reached with creditors through "local" receivers operating at various points in Alberta under direction of the board.

## ODDS AND ENDS

In some sections of New York state a bread war has been going on. Wheat grown in the northern portion of the state twenty-one counties standard loaf, ordinarily selling for 12 cents, is being given away by grocers or sold for 5c.

Overseas shipments of Canadian wheat from August 1st to October 14th totalled 27,492,000 bushels, of which 4,525,735 was durum wheat. For the same period in 1937 total wheat shipped from Canada were approximately 18,465 million bushels.

The federal government has announced that it will extend aid to Saskatchewan farmers who are again beset by diseases of drought, blight, and grasshoppers, to the extent of \$9 million. Half of this will be a grant and the balance a loan, and the federal government will also spend \$3 million.

It is anticipated that 150 million bushels of grain will be shipped through the St. Lawrence River during the current season. A total of 150 million bushels has been shipped in the 170 days of navigation up to October 20th, and from that date 10 days remain before the season closes.

## WHEAT BOARD PROVIDES FOR SEED WHEAT SALE

Announcing its policy in regard to the sale of seed wheat to growers, the Canadian Wheat Board has advised the trade that the Board wheat required for seed may be sold to growers at ex-country elevators at the Board's fixed carlot price less Fort William or Vancouver freight, whichever is applicable at point of sale. The purchaser must complete the necessary documents provided by the Board and it is understood that sales must be for cash.

The Board will also sell to companies carlot quantities of wheat in three country elevators at the Board's fixed carlot price basis Fort William or Vancouver whichever is applicable which will permit companies to supply growers with wheat at points where suitable supplies are now not available.

The Board has advised the trade that it will in no way assume and responsibility for variety or purity of the grain sold to elevators under this plan. Companies wishing to purchase carlots of wheat belonging to the Board in store in other country elevators may make application to the Board.

Railways of Canada have received grants from the Dominion and Provincial governments a total of 47,650,366 acres of land. Land grants to the Canadian Pacific and Canadian National have been 26,109,043 acres from the Dominion and 10,847,201 acres from provincial governments.

The Canadian National received 7,701,741 acres from the Dominion Government and 1,841,061 acres from Provincial Governments, or a total of 9,542,802 acres. Other railways in Canada have received 8,859 acres from Provincial Governments.

Total Dominion grants have been 31,881,643 acres and Provincial grants have been 15,768,223 acres.

## LONG YEARS AGO

November 10, 1927

C. H. Naab has closed his grocery store on front street. Geo. Wise, who was operating the store for Mr. Naab, has taken a position in the P.O. elevator.

Alex Reid has purchased a number of purebred sheep and intends going into the business on a large scale.

Jim Ramsay and W. Hay have reopened the Union Livestock Stable next to the Crown Lumber Yard.

Snow began to fall Sunday morning and by Monday night over a foot of snow had accumulated over the ground. It looks as if winter is here. (Note—and it was).

Mr. Gus Burger is having an Auction sale on November 15. He has a lot of stock on his farm and is leaving for California.

## "YOU NEED TWO NEWSPAPERS"

Attention is drawn to our readers of an advertisement in the Calgary Herald entitled "You Need Two Newspapers," which appears in this issue. As the advertisement points out, it is essential that you take the local paper for the home-town news—but for national and international news you must take a large degree rely on the daily newspaper.

If you are not a subscriber to either the local or daily newspaper, you should make some effort to have your name placed on the mailing lists of both. You will find the investment is well worth the cash involved.

## LITTLE ITEMS OF LOCAL INTEREST

The first snow of the season fell on Friday morning. Winter will soon be on full swing. The hail, but on the storm doors and windows, and don't forget the wheat strip!

Born on Saturday, October 29th, to Mr. and Mrs. Barnes, (nee Grillo Maxwell) a daughter.

—Look over the cards and order your Personal Greeting Cards from the Carbon Chronicle now—for Old Country mailing.

The Junior Bridge Club commenced activities for the season on Wednesday evening last at the home of Mrs. C. Priesen.

Mrs. Jas. Smith was a Calgary visitor Thursday.

Inspector W.E. Frame visited the Carbon school last week.

Friday, November 11th is Remembrance Day and in public places of business will remain closed.

The annual meeting of the Carbon Curling Club was held Friday night. Watch for further particulars next week.

Place your orders now for future delivery of Counter Check Books. These are direct factory representatives. The Carbon Chronicle.

## INTERESTING FACTS OF THE ALBERTA MUTUAL TELEPHONE SYSTEM

While there were a few Farmers Mutual Telephone Companies organized in 1923, a concerted effort to effect a sale of lines did not commence until the early fall of 1934. Hundreds of organized meetings took place and the Companies were gradually formed. Poles, wire and telephone sets were sold at junk prices, although the value of the Plant was in fair shape. The Companies were given very terms—consequent on the balance in two equal annual payments, this being distributed equally among the subscribers on a share cost basis.

At the time the Companies began operation in real earnest, the Department had about 9,000 rural telephones, this having dropped from a peak of 20,000 telephones caused by depression, poor crops, etc. Due to intensive canvassing by the Farmers' Mutual, many subscribers have been connected up as well as former subscribers who had discontinued their service, as a result of which there are now about 16,150 telephones on the rural lines. The net result is a splendid gain of somewhat over 7,000 rural telephones. This is largely accounted for by the fact that the Mutual Telephone Companies due to localized maintenance can give service at a low monthly rate. In addition, of course, the Farmers do not have to carry the load of the original bonded indebtedness for the rural lines, but they do carry the charges on that debt. The Farmers take more interest because the plant is their own and they are not liable to remove telephones if they own a share in their Company. In addition they will rest poles and do minor repair jobs themselves, knowing that they are thereby saving the money which would be paid to the utility as well as for their Company.

The sales were practically completed in 1937.

There are approximately 700 Companies in operation in the Province standing in size from 4 or 5 subscribers to several hundreds in the larger units. The two largest Companies are in Edmonton having a total of 615 subscribers, between them. The monthly rates run from 75c at small to 1.25 at large. At 25c to 50c at larger cities, with the average rate being about \$1.50 at ordinary size Exchanges.

Roughly over 85 per cent of the Plant has been paid for. Of the remaining 15 per cent a large portion is not yet due and on the balance owing mostly by groups in the drought areas, payments are being made from time to time.

CARBON, ALBERTA, THURSDAY, NOVEMBER 10, 1938

## Just we Forget

## RETURNED MEN

A few mere words of thanks would seem so small, but I could not write them, speak them, think them, but letters will fall. And a surging pride akin to pain fills my heart when I see the valiant maimed, the medals I won, the memory eyes, Of returned Men.

While we Honour the Dead today, Honour the brave living; The Returned Men. All of them gave and thousands Are still giving.

—M. Josephine Turner

## HE'S AT PEACE, DEAR MOTHER

There's so little a friend can do or say, And hold me gently, dear Mother, When she remembers what her dear boy said, Or tells me about her boy—whose dead— I strive to keep back my tears and know She will weep by herself, after I go.

A mother's aching heart—in tears— Remembers so clearly down the years; I wish there was some way friends could bear

A part of each mother's lone despair. "These mothers love, suffer and know The brightens of joy, and the depths of woe."

Oh, when memory murmurs of lullaby days, While she cradles her arms and memory May God be near—and when memory comes

To comfort the loving heart which grieves, May the Angels chant from their Home above He's at Peace, dear mother, within God's love.

—M. Josephine Turner

## PROSPECTS POOR FOR "FRESHER TRADE"

With European countries endeavoring to build up a balance of trade structure, including the maintenance of the agrarian group, and having no real desire for free trade, and with the present strong trend in the direction of government interference and control over trade, there is indication of a general revival of free trade for the future. Whatever may be the opinion held regarding the principle of economic planning, existing conditions tend to it. But as long as co-operation between the various nations is as small as it is now, such planning can only be effected on a national basis. Moreover, the policy of economic self-sufficiency has given to agriculture and agriculture, with protection by means of tariffs, quotas, exchange restrictions and other regulations, formerly open largely to manufacturing and industrial workers only. These gains with the consequent expansion in agricultural operations and production to meet national requirements within such barriers, will not be lightly surrendered—Monthly letter, Royal Bank of Canada.

## U.S. TREASURY HAS FOURTEEN BILLION IN GOLD HOARD

WASHINGTON — The United States Treasury disclosed its gold hoard was about \$14,000,000,000—more than 55 per cent of all the monetary gold in the world.

The United States' holdings grew enormously during the European war crisis, when gold was sent here to buy dollar credits. Since September 1st the treasury has acquired \$872,700,000 worth of the metal, more than during any similar period in history.

Most of the treasury gold has been converted into cash by the issuance of paper currency, against which it could supply overseas investors who decide to take their money home.

The latest federal reserve board estimate of the world's monetary gold stocks was \$22,600,000,000, of which England and France each had about

## NAVY LEAGUE OF CANADA DOES VALUABLE WORK

Ballying to the support of the Navy League of Canada in its work of assisting widows and orphans of men of the Merchant Marine and the dependents; maintaining sailors' homes and institutions in our leading Canadian ports from coast to coast, and looking after the welfare of the seamen when ashore; training boys and young men and helping to make them better Canadian citizens, residents of Carbon enlisted \$11.50 to the cause in a recent campaign conducted here by Fred Cooke, organizer of the Alberta Division.

## CANNED SALMON PACK LARGEST SINCE 1930

British Columbia's 1938 pack of Sockeye salmon is going to be the big pack since 1910. And that is the same thing as saying that it has only twice been estimated in 1920 and 1934 years. The importance of big figures for Sockeye production comes from the fact that the Sockeye is the most valuable of the five species of Pacific salmon.

In 1914 British Columbia's canneries put up 530,000 cases of Sockeye and in 1915-1929 the average annual pack was only 314,562 cases. Then along came 1930 when the production rose to 477,678 cases, but in the intervening years since then this latter figure has not been closely approached. By September 17 of the current year, however, the Sockeye output had exceeded 425,100 cases. The Sockeye season was then nearing its close, the season was already closed in most parts of the province, but late returns will lift the pack total somewhat above the 425,000 mark.

The aggregate output of canned salmon of all kinds at September 17 was \$25,000,000, and Holland had about \$1,000,000. The total European gold stock just before the war crisis was estimated at \$21,140,000. These figures do not include substantial holdings by private persons.

Don't forget the I.O.D.E. dance to be held in the Farmers' Exchange hall on Friday, November 11th. The event will be a lovely affair with Leon Davis' 5-piece orchestra providing the music.

## WORLD HAPPENINGS BRIEFLY TOLD

Northern Alberta's wheat crop this year will average 19 bushels to the acre and average No. 3 Northern in grade, it was disclosed in the Edmonton Journal's crop survey.

Hon. Alastair Buchanan, younger son of Lord Tweedmouth, sailed from Quebec for England aboard the liner Empress of Australia after spending a three-month vacation in Canada.

Main road into Cypress Hills park has been named "Pass of Killisnoak" in the suggestion of Lord Tweedmouth when he visited the Saskatchewan park this year.

Loans under the Dominion Housing Act and the National Housing Act amounted to \$22,185,964 last August, the finance department announced at Ottawa.

Belgian Ghita Heroy, 66, Ethiopian foreign minister, who followed Emperor Haile Selassie into exile, when Italians over-run Ethiopia, is dead.

A shipment of gold and silver bars declared by border officials to be worth \$4,325,000 arrived in France from Barcelona, seat of the Spanish government.

Poland has asked the League of Nations to take charge of thousands of warlike immigrants, mostly Jews, which the Warsaw government is anxious to move outside the country.

"Dolly", believed to be the oldest horse on the North American continent and owned by Walter Carruthers of Turnberry township, Ont., is dead. Carruthers said the horse, which he bought in 1907, was 41.

Southern Alberta's sugar beet crop is estimated at 22,000 tons from 20,000 acres. Estimates of the 1938 sugar production run as high as 80,000,000 pounds, compared with 76,000,000 pounds last year.

### Must Be Experienced

Only Financed Prospector Has Any Opportunity In Yellowknife

There is no place for the transient in the Yellowknife gold field, two officials of the mines and resources department, back from a tour of inspection of schools, hospitals, government offices and mining districts in the Northwest Territories, reported at Ottawa, Yellowknife, on the north shore of Great Slave Lake, is Canada's newest mining center.

The financed prospector, the hard rock miners and construction workers have a chance for employment during the field season in the Yellowknife field, Canada's farthest north gold workings, but even these should have guaranteed jobs before departure. For others there is no room, said R. A. Gibson, director of the lands, parks and forestry branch, department of mines and resources, and A. L. Cunningham, Mackenzie district superintendent.

Travel around the field is almost entirely by aeroplane, though the trip to Yellowknife may be made by boat. It costs a lot of money to get around and there are no facilities for the care of the stranded.

All food must be purchased. Meat can be bought from the Indians who have exclusive hunting rights. Non-perishable vegetables and other foods are brought in by boat and taken to the mining camps by planes. Fresh vegetables are imported by plane from Peace River and Edmonton. Plane rate for fresh fruit and vegetables from Peace River to Yellowknife is 27½ cents a pound.

Both sides of the Yellowknife River, for many miles north of the town of Yellowknife, are staked out. Prospectors, usually taken in by plane, are busy for days on the east and west of the staked territory and new finds may bring new settlements in the near future.

Since gold was discovered in the Yellowknife territory four years ago there has been an influx of prospectors from Ontario and Quebec, veterans who have backing. The field is not positively proven. It is not known whether the value found on the surface persists at depth and it will be two years or more before the importance and extent of the field is determined.

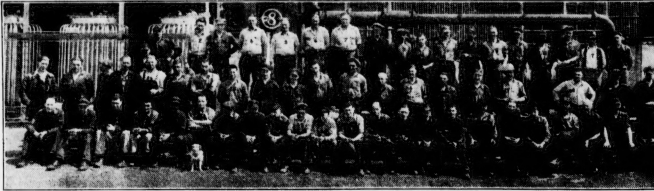

Meanwhile the new mining camps grow in population and activity. In and around Yellowknife there are approximately 1,000 white people. The sub-mining officer at Yellowknife is the town's policeman and the medical health officer acts as a sanitary inspector.

Teacher (helping Jane fasten her coat)—"Did your mother hook this coat for you?"

Jane—"No, ma'am, she bought it."

The name "dime" for the American 10-cent piece came from an expression denoting payment in full by a dime.

## PHOTOS OF STAFF OF FLIN FLON MINE

They keep everything running smoothly and believe us, they're busy. Machinists, carpenters, saw sharpeners and dozens of other occupations are represented here—seventy-one of them and mostly from Canada and Great Britain. The Flin Flon has been a great mine for Canadians and they're all happy out there.

### Sentinel Of The Danube

Friendship Of Hungary Now Seught By Successor States

With Germany on the one hand and all the Successor States on the other competing for the friendship of Hungary, the situation in that quarter of the world may be said to have turned upside down.

The breakup of the Austro-Hungarian Empire after the war resulted in heavy loss for Hungary in territory and population.

Before the war there was a such place on the map as Czechoslovakia. It was carved out of the territories of Austria-Hungary by the men who made the Treaty of St. Germain.

The Successor States as the three beneficiaries are called, have hitherto regarded Hungary as their natural enemy.

Now they are making non-aggression pacts with her, while Germany is showing honors on Admiral Horthy, the head of her Government. Hungary is valuable to both because it has made her a sentinel on the banks of the Danube.

Each wants the friendship of the sentinel—News of the World.

### A NEW "DRESS-UP" SLIMMER By Anne Adams

You're admiring its slender lines and dignified youthfulness, but are you stopping to consider how simple this new style is to wear? Anne Adams' new dress in which you may "shine" at informal parties. It will especially delight those with large hips, a full bust, or any other feature that the beautifully slimming center panel. Note the sleeves you have choice of an attractive short version, or an equally good long style.

### Carries Book And Cards Youthful Scientist Medical Air Service

Bendix Trophy Winner Also Takes Big Sandwiches On Trip.

Jacqueline Cochran, flying fashion plate, takes along a book on American history, a deck of cards, and some non-sweet sandwiches when she tears across the country on record-breaking flights.

"I've never had to eat the food," the Bendix Trophy winner and beauty expert told the National Women's Press Club at Washington. "But if I did need to make an emergency landing, I could read or play solitaire and I wouldn't get hungry. I guess my taste in reading sounds dry, but I enjoy it."

The largest motor on record was that of Aig 18, 1753, which traversed Europe from Shetland to Italy at 50 miles a second.

The motor-car has almost done away with the horse, but not with the ax.

Men are destroyed by the things they have made.

The many-legged mulepuck can fall itself into a perfect sphere, as a barrel cactus is more than 90 per cent water.

As a rule, the genuine antique is uncomfortable. A comfortable piece of furniture wears out in its own time.

New Device Records The Vitamin A Content Of The Human Body

Invention of a device which determines the vitamin A content of a human system in 30 seconds was announced at Edmonton by Dr. Lionel Bradley Pett, youthful university of Alberta lecturer-scientist.

Lack of vitamin A is related closely to "night blindness", colds and other diseases of the nose and throat, Dr. Pett said.

The device, simple in appearance but actually mathematically involved in its construction, outwardly resembles a circus midway "penny" machine. Staring into the deep tubes, a patient's eyes are dazzled by a strong light shining on white paper.

The length of time taken for the eyes to return to normal shows any deficiency in vitamin A content, Dr. Pett explained. "Slight recovery time for a person whose system contains the proper amount of vitamin A apparently is nine seconds, my experiments have shown," he said.

England's post-laureate in the 14th century, Geoffrey Chaucer, took his compensation in the form of a yearly allowance of wine.

The Portuguese West African mud-skipper fish cannot swim. It breathes through its tail and drowns when it goes out of its depth.

In French Indo-China, the women wear trousers, men wear skirts, and children are given numbers instead of names.

Corps Of Flying Doctors To Serve Settlers Abroad For Alberta

Alberta may have a corps of flying doctors to serve settlers in isolated districts if a plan of Dr. E. M. Johnston of Wandering River, is adopted.

Establishment of a medical air service for outlying districts was advocated by Dr. Johnston when she addressed the annual convention of the Alberta division of the Canadian Medical Association at Calgary.

"I am not advising the government, but simply suggesting a scheme which might be made available by private effort," she said.

England's post-laureate in the 14th century, Geoffrey Chaucer, took his compensation in the form of a yearly allowance of wine.

The Portuguese West African mud-skipper fish cannot swim. It breathes through its tail and drowns when it goes out of its depth.

### SUNDAY SCHOOL LESSON

OCTOBER 2

#### THE ONE TRUE GOD

Golden text: Thou shalt love the Lord thy God with all thy heart and with all thy soul, and with all thy might. Deuteronomy 6:5.

Lesson: Exodus 20:2, 3; Isaiah 45:22; Mark 12:28-34; I. Corinthians 8:4-6.

Devotional reading: Psalm 67.

Explanations And Comments.

The First Commandment, Worship God Exclusively, Exodus 20:2, 3. The Deuteronomy Ten Commandments is introduced by a statement reminding the children of Israel of what they owed the Lord their God, for it was he who had brought about their escape from bondage in Egypt. It is an appeal to history, recalling God's care in the past and implying his care in the future. They could not fail to acknowledge his right to impose laws upon them and to expect them to live up to them.

At Sinai God enabled his great servant Moses to select the best of existing laws and also to make such additions to them as experience had proved necessary. The first commandment springs from a two-fold source—the will of the Creator and the felt need of his creatures. (S. Parker Culman).

"Thou shalt have no other gods before me. No other gods are to be preferred to Jehovah, nor are others to be worshipped as well as he." When the law was promulgated from Sinai, the world was given over to the worship of many gods. The first commandment forbids polytheism, the worship of false gods.

The only God, Isaiah 45:22. Through the mouth of his prophet, God proclaims himself as the only God, all-powerful. "Beneath every religious truth is the unity of God. Behind every great movement is the personal initiative and urgency of God. And revelation is, in its essence, and more, publication of truth about God, but the personal presence and communication to men of God himself" (George Adams Smith).

Dominion Drama Finals

Will Be Held In London, Ont., During April 1939

The 1939 Dominion Drama Finals will be held in London in Easter week, April 10 to 15. The Western Ontario festival takes place in Hamilton, January 25, 26, 27 and 28.

D. Park Jamieson, of Sarnia, honorary director-general of the Western Ontario Drama League, has been named chairman of the London festival committee, in preparation for this the first national drama festival to be held in that city. As yet, adjudicators have not been secured for either the Dominion or regional festivals of 1939.

Both full-length and one-act plays will be included on the program for the Dominion festival.

To encourage play-writing of longer vehicles in Western Ontario the W.O.D.L. offers a prize of \$50 for a play to run for one to three hours. Entries may be made to Mrs. C. W. Adams, 348 Aberdeen avenue, Hamilton, up to December 1. The entries are not for production but will be judged on their merits as plays.

A prize of \$10 is offered by the W.O.D.L. for the best cover design for the Dominion festival program, and a second award of \$10 for the best design for the contestants' pin, for the national finals.

Adopts New Scheme

Motorcycle Police In Aberdeen To Be Equipped With Radio

Policemen cycling round lonely beats in Aberdeen, Scotland, are to be equipped with radio headsets, which make them as mobile as cars.

Aberdeen is the first place to adopt the scheme. Twenty-three police officers are to be equipped with the radio sets.

The men will be able to receive calls from headquarters and talk back as well. The radio sets will be carried in a leather bag, the satchel; the receiver-microphone will clip on the headband.

## MILITARY AT THE HEAD OF CZECH CABINET

Prague.—President Eduard Benes called on his army to protect the Czechoslovak people against "unfriendly elements" he said was attempting to arouse enmity toward the government in the tense atmosphere of foreign pressure on Czechoslovakia.

The president's communication to the armed forces came a few hours after a new cabinet, headed by Benes, with Jan Syrový as premier, assumed control of the government.

An official communication declared the Syrový government was one of "order, controlled strength and experience."

It added that although the new government is headed by the Czechoslovak army's inspector general it is not "a military government," terminating the cabinet "not only to political parties, but of work for the people."

In this day our nation is experiencing a deep sorrow," the president's message told the soldiers. "Unfriendly elements are trying to use this sorrow to arouse enmity toward the government, but you must remember that in this difficult time the unswerving loyalty of the army for security—the army for which everyone gave material sacrifices."

Syrový's cabinet was formed to cope with rising indignation over surrender of the republic's Sudeten areas to Germany.

The veteran campaigner, considered friendly towards Soviet Russia, included Premier Benes, who had whose cabinet resigned in the face of resentment against the government's capitulation to Anglo-French pressures designed to appease Adolf Hitler and forward the cause of European peace.

General Syrový, emerging as the republic's strong man in the hour of its greatest crisis, took over the war ministry portfolio in addition to the premiership.

He lost an eye while fighting in the Czech legion with the Russian armies against Germany and Austria during the Great War. It was during this service that his warm friendship developed with the Russians.

He over from the Hodza cabinet was Finance Minister Karel Krbáček, who shared with President Benes and Hodza the decision to cede Sudetenland to Germany.

It appeared certain the army would have greater influence in dictating policies of the new regime, which the aroused Czechoslovak people called upon to resist further sacrifices.

Benes described the new cabinet in a nation-wide broadcast as "a government of national solidarity."

Before the cabinet was announced, it was said outside government offices that selection of General Syrový would be offensive to Germany because of his service with the allies during the Great War.

By the same token, it was said in Berlin circles that he was considered too friendly towards Russia to suit the Nazis.

Benes, in his address, hinted new negotiations on a broad scale might give a new aspect to the gloomy prospect presented by clamoring on all sides for separation of the Czech minorities as well as the Sudeten Germans.

"Wait patiently," he said. "Our people have always been sensible and realistic."

Speaking with great emotion, the president pleaded with his people to have confidence and promised the nation would not depart from its traditional policies of democracy and independence.

It was said in informed quarters on Government hill that influences from abroad were directed not much towards Hodza as at Benes himself.

### Honorary President

Vancouver.—Commissioner R. T. Wood of the Royal Canadian Mounted Police has been elected honorary president of the Royal Northwest Mounted Police Veterans' Association of Vancouver, it was announced. Commissioner Wood's father, Inspector Zachary Wood, commanded many of the veterans in 1886 when he led a detachment to Skagway, Alaska to guard a \$150,000 gold shipment.

### Brother Of Louis Held

Winnipeg.—Alex Riel, last surviving brother of Louis Riel, organizer of the Northwest rebellion of 1885, is dead. Mr. Riel was born in St. Vital district, just south of Winnipeg, and lived there all his life. He did not take part in the rebellion.

### Withdraw Volunteers

Spanish Foreign Aid In Civil War Geneva.—The Spanish government pledged its unconditionally to withdraw at once all foreign volunteers on its side in the Spanish civil war.

Premier Juan Negrin made the withdrawal before the League of Nations assembly which he asked to send an international committee to Spain to verify that the undertaking was carried out.

Dr. Negrin told the assembly the withdrawal would include not only all foreigners but also those who had become Spanish nationals since the beginning of the civil war in July 1936.

The premier declared: "The government of Spain is anxious to avoid her determination to remove all prospect of placing blame on her for failure to obtain an end to foreign intervention in Spain."

The international committee for non-intervention in Spain, with headquarters in London, agreed July 5 on a plan for evacuation of foreign volunteers from both sides in the Spanish civil war.

(The Spanish government, in accordance with the plan, estimated there were 10,000 foreigners on its side and 100,000 with the insurgents. The insurgents on Aug. 22 replied to an acceptance subject to many conditions that London considered they had in effect killed the plan.)

Negrin paid tribute to the valor of the international brigade fighting with the government troops. He included many Canadian members of the Mackenzie-Papineau battalion.

He made it clear there were no strings attached to the government's decision—that it was not subject to a withdrawal of any kind from the insurgent side nor did it require an action of the league.

League sources said one reason for the Spanish government's decision was persistent reports Britain was considering putting the Anglo-French pact under review.

Negrin said they saw sources to be magnified that if the Spanish government sent out all foreign volunteers it would be difficult for Britain to overlook the volunteers of the insurgent side, thus perhaps necessitating some action about them before the Anglo-Italian accord could become effective.

### Ship Grain East

Terminals At Pacific Coast Filled To Capacity

Calgary.—Grain terminals at the Pacific coast have absorbed all the grain that could be handled in the present time with the result that grain trains from Alberta are now moving east to the head-of-the-lake.

Officials of the Canadian wheat board here stated that while coast terminals are at capacity, what with grain from the west, there are trains now en route, Alberta farmers will still be paid on the basis of the grain they have shipped.

Until the past week nearly 80 per cent of the shipments were moved to the west coast, according to railway reports.

The grain movement from Alberta points is the heaviest in 10 years, railway officials said. In the Alberta district car loadings to date this year total 11,979 compared with 4,378 a year ago. From Sept. 1 to date, loadings totalled 9,901 as compared with 3,556 for the same period of 1937.

Facilities at Calgary are taxed to the utmost. Road and rail cars for grain were shipped from the Calgary district in one day.

### Had Narrow Escape

Transients Jumped From Freight As Cars Flung Down Embankment

Creston, B.C.—Fourteen cars of a heavy Canadian Pacific Railway freight loaded with lead and zinc concentrates left the rails six miles west of this Kootenay town and tumbled off a cliff. A broken engine on a carload of zinc concentrates was blamed for the incident.

Three transients riding the freight jumped as two cars left the rails and plunged 30 feet down an embankment almost to the highway. No one was injured.

### B.C. Engineer Dies

Grand Forks, B.C.—John P. Hunter, locomotive engineer on the Canadian Pacific Railway Company's Kootenay division for 34 years, died in hospital here. Hunter joined the railway company as a wiper in the Kootenay division when it was formed and was promoted to engineer the following year.

### Postponed Further Trials

Kyston Abandons Another Attempt To Run To Rube Rogge

Bonneville Salt Flats, Utah.—Captain George Kyston, of London, drove his mighty "Thunderbolt" through the measured mile but encountered motor trouble and postponed an assault on his own world automobile speed record of 237.5 miles per hour. Kyston's official time was announced as 3:48.5 miles per hour. He abandoned further attempt to raise his record after his giant racer was damaged in a careening five-mile run.

## ANTHONY EDEN SEES WORLD ON EDGE OF ABYSS

Stratford-on-Avon, England.—Anthony Eden, former foreign secretary, declared "the conviction is growing that the world is on the edge of a deep widening confusion."

Mr. Eden, who left Prime Minister Chamberlain's cabinet just seven months ago in protest against dealing with Premier Mussolini of Italy, told the audience at an English-speaking union dinner:

"The British people know that they are not alone. They know that it is not made too late."

"There are some people who believe that if immediate issues can somehow be resolved without resort to force the ambitions of all powers of Europe then will have been largely met and the crisis is over."

"I can find no justification for such hopes, which seem to me ill-founded."

Warning against delusion, Mr. Eden continued:

"The truth is that each recurrent crisis brings us nearer to war. We either even closer to the abyss. During the last weeks it must have seemed to many that we have been upon the very brink."

He recalled "several warnings I have felt obliged to give against optimistic forecasts as to the international outlook" and said:

"I told you such outlooks are unfounded. I wish my forebodings could have been fulfilled but unhappily the international situation now is far worse than it was six months ago and it is still steadily deteriorating."

"Foreign autocracies are no novelties to us. Always, in the ultimate event, we have been obliged to call to halt."

"This is equal to about 800 car loads and would require 23 train loads to move to the main line. The wheat delivered weighed 35,316 tons."

New York.—Arrival of an additional \$15,800,000 of foreign gold recently boosted the movement into the United States of yellow metal during September so far to \$112,213,000.

This, according to banking circles, marked a new high in gold shipments in a single period.

It is not yet too late for a change in their outlook, for comprehension in the words of Mr. Hull (United States secretary of state): "All nations have a primary interest in peace with justice, in economic well-being with stability and with conditions of order under law."

"If, however, this truth continues to be denied or ignored, there can be no escape from that final destiny which it is the supreme task of statesmanship to avert."

### BULGARIAN ROYALTY IN ENGLAND

Toronto.—Rev. John W. Woodside, minister of Chalmers United Church, Ottawa, was elected moderator of the United Church of Canada, succeeding Rt. Rev. Peter Bryce, now minister of Metropolitan United Church, Toronto.

King Boris and Queen Joan of Bulgaria are shown as they alighted from the train at the Hotel, London. Bulgaria was aligned with Germany during the Great War, but King Boris is understood to be distinctly favorable to Great Britain and France in the crisis over Czechoslovakia.

### MAY GET ACCLAMATION

W. J. Stewart, former mayor of Toronto, who has been chosen as Conservative candidate in the Parkdale bye-election for the seat in the Ontario House made vacant by the death of Fred G. McBrien.

### Proposals Considered

Ottawa Discusses Revision of Canada-United States Trade Treaty

Ottawa.—Proposals brought forward by the Canadian mission negotiating for revision of the Canada-United States trade agreement were considered by cabinet council but no details were announced.

Following the weekly meeting, Hon. T. A. Cresser, minister of natural resources, acting in place of Prime Minister Mackenzie King, who is ill, said the Canadian negotiations were "pretty well advanced," but he would make no forecast as to when the new agreement would be signed.

It is understood negotiations for an Anglo-American agreement, carried on simultaneously with those between Canada and United States, may have a definite connection with the Canadian agreement and may delay its conclusion.

Mr. Cresser King is much improved, his office reported, and almost recovered from an attack of sciatica.

### Set New Record

One Day's Grain Marketings To Leithbride Totalled 800

Leithbride.—All-time records for grain marketings in a single day were made today at the Leithbride railway division of the Canadian Pacific.

Wheat poured into the elevator, a total of 1,177,000 bushels of wheat and 8,000 bushels of other grain, Sept. 19 to establish the record.

This is equal to about 800 car loads and would require 23 train loads to move to the main line. The wheat delivered weighed 35,316 tons.

### Shipping Gold To U.S.

New York.—Arrival of an additional \$15,800,000 of foreign gold recently boosted the movement into the United States of yellow metal during September so far to \$112,213,000.

This, according to banking circles, marked a new high in gold shipments in a single period.

It is not yet too late for a change in their outlook, for comprehension in the words of Mr. Hull (United States secretary of state): "All nations have a primary interest in peace with justice, in economic well-being with stability and with conditions of order under law."

"If, however, this truth continues to be denied or ignored, there can be no escape from that final destiny which it is the supreme task of statesmanship to avert."

### Elected New Moderator

Toronto.—Rev. John W. Woodside, minister of Chalmers United Church, Ottawa, was elected moderator of the United Church of Canada, succeeding Rt. Rev. Peter Bryce, now minister of Metropolitan United Church, Toronto.

### Will Keep On Working

Windsor, Ont. Not Impressed By Rumors Of His Death

Windsor, Ont.—Mammal training instructor in Windsor public schools, 62-year-old Norval McKinn, remained unmoved by news he had been named the heir-apparent to half of \$100,000. No matter what happens he'll keep on working.

McKinn and his sister, Mrs. Judson Hill, Tillamook, may each inherit the estate of William McKinn, who died in 1928.

The estate was awarded by the court to the late Robert McKinn, Norval's father, who died a month ago. The father lived here with his son for some time prior to his death.

"I'll be more impressed if I had the cash in my pocket," McKinn said.

### Romania Is Nervous

Placed In Bad Spot And Wants To Know What Allies Will Do

Bucharest.—Romania—first nation in prestige to Germany—Czechoslovakia—would like to know what strategic line Great Britain and France have decided to take to resist the Czech drive to the east, and when they intend to say a firm "no" to Germany.

Only Tomáš Bucharach is able to formulate its policy, high Romanian circles indicated.

Soviet Russia apparently presents risks Romania would not like to run at the moment. Italy, in the eyes of observers here, has become a German vassal.

Mr. Butler's next move before the political committee was to strike from the conference agenda the British government's interpretation of it—the last hint of unconditional obligation to supply punitive measures against an aggressor nation.

Revised Foreign Policy

Russia Reported To Be Turning Its Back On Europe

Moscow.—Draconic revision of Soviet foreign policy is turning its back on Europe, its eyes on Asia—was foreseen by some diplomats as a probable result of Anglo-French pressure on Czechoslovakia.

German new territory.

Official observers believed Moscow's influence on the policy of western European states will have dwindled almost to the vanishing point should Czechoslovakia be "neutralized" by German encroachments.

The government newspaper Jevreys, published according saying "the fate of Czechoslovakia is the fate of France."

Government sources have suggested in press articles a German victory in Czechoslovakia "automatically" would mean Romania and other Balkan states would be forced to align themselves to German hegemony and abandon all hope of support from France, their protector.

London, already aligned with Germany in plans for gaining minorities at Czechoslovakia's expense was completely in the hands of the German camp.

Consequently many believed the Soviet Union, already aligned with Germany in her western frontier, might turn her back on Europe and seek to exercise a dominant influence in Asia.

One hint of this was given in Pravda, Communist party newspaper, which editorially warned Britain and France the procedure they were contemplating in central Europe might turn against them in Asia or Africa tomorrow.

Office Records Used

Reason Veterans Have Difficulty In Securing Pensions States

Winnipeg.—Capt. C. P. Gilman, of Ottawa, Dominion adjutant officer of the Army and Navy Veterans' Association, told delegates to the association convention one of the reasons many disabled ex-servicemen find it difficult to secure pensions was because pension officers dealt more with office files than with the actual physical examination.

No French In School

Calgary.—Calgary will not have a French school for the benefit of the children of French Catholics. Several months ago a committee of French-speaking taxpayers requested the Calgary school board to begin to open a French school. The application was refused at a meeting of the board.

Secures Vancouver Elevator

Calgary.—No. 2 terminal grain elevator at Vancouver, owned by the Delta Elevator Co., has been leased by the Alberta wheat pool. Lew Hutchison, chairman of the Delta Elevator Co., has been asked to open a French school. The application was refused at a meeting of the board.

## Snicklefritz----

Botany teacher: "Where do we find mangoes?"

Pupil: "Where woman goes."

Mother: "Marjory, were you a good little girl at church today?"

Marjory: "Yes, mother. A church of freed men a big plate of money and I said, 'No, thank you.'"

"Officer, I'm looking for a parkin' place."

"But you've no car."

"Oh, yosh, officer, I have; my car is in the parkin' place I'm lookin' for."

A golfer was driving off about a foot in front of the teeing mark. The club secretary happened to come along and cried out indignantly: "Here, you can't do that! You're driving off in front of the mark."

The player looked at him with pity.

"The player looked at him with pity."

"Away with you!" he said tersely.

"I'm playing my third stroke."

Policeman: "How did this accident happen?"  
Notoriety: "My wife fell asleep in the back seat."

"Why was Adam created first?"  
"To give him a chance to say something."

A modest girl puts court plaster over her appendectomy scar before joining a nudist colony.

Junior: "Between you and me, what do you think of Jack's girl?"  
Senior: "Between you and me, not so much, but alone—oh boy!"

The Happy Half Dozen have a cool that must be Scotch or of Scotch descent. He uses 'Lax' to try the lacer in to keep it from shrinking.

Your wife is very broad-minded isn't she.  
Oh, very! She believes there are two sides to every question—her own and her mother's.

A small boy was late for Sunday School and his teacher asked the cause. "I was going fishing, but my daddy wouldn't let me," said the boy.

You're lucky to have a fine daddy like that," said the teacher, "and I suppose he explained to you why you should not go on Sunday."

"Yes, ma'am," replied the boy, "he said there wasn't enough bait for both of us."

"Why did you strike the telegraph operator?" asked the magistrate of the man who was summoned for assault.  
"Well, sir, I gives him a telegram to send to my gal, an' he starts reading it, so of course, I ups and gives him one."

## IT IS YOUR ELEVATOR!

You do not need to be a shareholder of the Company to think of the United Grain Growers Elevator as your elevator. It was built by a Farmers' Company for the use of farmers, and the successful record of the Company has been made possible by the continued patronage of many thousands of farmers.

ANY DAY A FISH DAY

FISH AND VEGETABLE LOAF  
Take 2 cups (1 1/2 pounds) of canned or fresh fish and place in a bowl. Coat with layer of chopped, cooked onion. Seasoned salt and pepper. Pack a layer of whole kernel corn on top. Pour over this 2 cups of medium white sauce. 1 tablespoonful of chopped onion and minced fresh two slightly beaten eggs. Sprinkle the top of the mould with extra crumbs. Place in a pan of hot water and bake in oven 1 1/2 to 2 for 1 hour. Serve unadorned and accompanied with fish parcels. See recipe.

## THE END OF MALCOMBOOM

How do you plead?  
"Guilty. But it was this way, Judge: I never would have done it except for one thing. I didn't object to my very much to his looking at the papers on my desk while he was in my office talking to me. That's to be expected and as a printer, I myself occasionally look at the papers on other people's desks. Of course I don't look at them unless they are upside down. And then I read them only because a printer can read 'em when it is upside down, and I like to remember that I'm a printer. But this man read papers when they were right-side up and easy to read. That wasn't sporting, do you think, Judge? And he always did it—every time he came in the office. I used to write 'Malcomboom is a Peeping Tom.' I'd write it on a piece of paper and leave the paper on my desk, so he would read it. His name, as you know, was Malcomboom, Judge. But he kept on reading my papers, just the same, and he kept touching them. That used to make me a bit provoked, but it wasn't the reason I lost my temper. I would put glue on papers, so when he touched them they would stick to his fingers. But that didn't stop him, Judge. However, I never would have lost my temper and thrown him out of that window if he hadn't reached out with a pencil that time and corrected my spelling."—The Printed Word.

## The Carbon Chronicle

YOU NEED TWO  
NEWSPAPERS

You enjoy your weekly. It gives you news of your own friends and neighbors. It deals intimately with the problems of your own district and works assiduously for its welfare. As your home newspaper it has first claim on your interest and your loyalty—and rightly so.

But, while your weekly gives you a resume of the news beyond your own district and, within its scope, deals capably with world events, it cannot possibly keep you in touch with every matter of importance. Frankly it makes no claims to do so.

To have an intelligent appreciation of what is happening in the world today you must read a daily newspaper. A good daily gives you all the news. No matter what your chief interest may be, world events, national conditions, sports or markets, it covers them all. And more than news. Special articles, features of particular interest to women and pages for the children make a daily newspaper welcome in every home.

By all means read your weekly. It deserves your interest and support. But, remember, you and your family need a daily newspaper, too.
